2014 Program Schedule

July 3 | Glen Clark has turned wood for four years, but seriously for the past two. He gets what he calls, his "obsession", from his father Oneil, a jack of all trades and master craftsman himself. Glen learns by watching, experimenting, and learning from his mistakes. Most likely, turning something beautiful from what was originally one of his... "mistakes". He uses an old 3/4 16 Sears bar lathe that some of his peers have described as a "boat anchor".

Along with inside out tuning method that he will be demonstrating at the July meeting, he also turns finials, bowls with both a natural edge and standard, candle sticks, pens, bottle stoppers and hollow forms.

Glen's dad taught him inside out turning; which to him is a very simplistic segmented turning, but with a twist. He finds it very rewarding. With this method of turning he can make ornaments, stands, and vases.

Most of his urns are turned and decorated from simple lines to painted scenes with personal meanings of the occupant. From the four seasons, sweet pea flowers, religious symbols, everyone is different and personal. A cradle for an infant or a whiskey keg can tell a story for posterity!

Normally a couple of days are available to finish, decorate and personalize the urn. To do this, the materials are prepared ahead of time without knowing when and for who they will be needed.

Jack will demonstrate his method for finishing the urn and several methods for decorating and personalizing. It starts with the rough turning and hollowing of the body from a fresh cut log, which then dries until it is needed.

Mark your calendar NOW for each month's program

If you would like to see a particular demonstrator call Jack Morse at 770-316-7941.
